DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-5, and 7-11 are rejected under 35 U.S.C. 102(b) as being anticipated by Mauger (5,345,498).

Regarding claims 1-5, and 7-11, Mauger discloses a method for connecting a wireless handset to a wireline switch (see fig.2, elements BTS, 1, 2, and its description) in an integrated wireline/wireless telecommunications network (see figs.1- 2, and its description) having a plurality of access controllers and wireline switches each of the access controllers being coupled to at least one of the wireline switches (see fig.2, elements 1, 11, 2, 10 and its description), the method comprising: receiving identification of a subscriber in response to a call attempt (see fig.3, elements 20, 22, col.3, lines 8-58 and its description); determining a preferred connection between the wireless handset and one of the plurality of wireline switches based on predetermined data associated with the subscriber (see fig.2, fig.4, col.3, line 59-col.4, line 29 and its description); and connecting the wireless handset to one of the plurality of wireline switches based on the preferred connection so as to complete the call attempt (see fig.2, fig.4, col.3, line 59-col.4, line 29 and its description).

Allowable Subject Matter

3. Claims 6, 12 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
